Notes

Figures in the Bureau of Health Information's Data Portal may differ from those in published reports and information products due to subsequent changes in data coverage and analytic methods, and updates to databases. At any time, the most up-to-date data are available in the Data Portal and supersede all previously published figures.

NSW Health transitioned to a new central information warehouse on 1 July 2024. This may result in subsequent minor corrections and updates to admitted patient and emergency department activity and performance results.
