Executive Summary

RECOMMENDATION: Certification to the new National Safety and Quality Health Service Standards version 2 is recommended following the assessment visit on 9 – 12 December 2019.

The Gold Coast Private Hospital has been found in general compliance with the audit criteria as stated in the audit plan.

Gold Coast Private is a 314 bed, 21 operating theatre facility co-located with the Gold Coast University Hospital, and the Griffith University forming a major part of the Health and Knowledge Precinct

Changes since last audit

New ownership commenced on 6th June 2019 resulted in a new board - Healthscope Corporate

Gold Coast Hospital has appointed an Assistant Director of Nursing position replacing the previous deputy general manager position.

DOSA - Day surgery is now separate and opened with further four operating theatres; seventeen recover beds (Stages 1 & 2) and 23 chairs in the discharge lounge. Two paediatric bays with separate interview rooms. Brand new 30-bed ward catering for Bariatric patients.

The Gold Coast Private Hospital (GCPH) has demonstrated a robust Quality Management System (QMS) that supports the integration of Clinical and Corporate governance of the National Safety and Quality health service standards version two that is evident in the hospital's documented strategic plan, Hospital Safety and Quality Plan, Clinical Governance Framework, documented procedures and other documents ensuring effective planning, operation and control of the hospitals key processes of quality, safety and integrated approach to their clinical and corporate risk management systems.

The signatories to the Governing body attestation statement for Gold Coast Private Hospital dated 13/12/2019 was sighted as evidence of compliance relating to the actions in the National Safety and Quality Health Service Standards v2 and responsibilities of governing bodies for Governance, Leadership and Culture during the previous 12 months.

The scope of quality management system is structured to the requirements of the new National Safety and Quality Health Service Standards version 2 and ISO 9001:2015 Quality Management System requirements. Patient care services continue to be delivered within the hospitals certification scope with the addition of palliative care and neurosurgical services to the current medica / surgical ward in response to customer and stakeholder needs.

The Strategic plan, Safety and Quality plan and Quality manual outlines the goals required to be met by the Executive team (Top Management) to measure business success and meeting patient safety objectives and intended results of Clinical and Corporate Governance system. These goals are cascaded from the Hospital Executive Management to the GCPH Heads of departments with identifiable and measurable targets that are monitored through monthly Round Table meetings between department managers and the executive team

It is evident the strong and enthusiastic leadership of the committed Executive team continues to foster a positive culture within the hospital engaging, directing and supporting staff to contribute to the effectiveness of the hospitals robust integrated clinical and corporate quality management system. The hospital is commended for their continued strong team spirit, caring attitude of staff, their innovation and sense of pride which was evident in departments visited during this survey and results from patient experience surveys.

There were no findings or opportunities for improvement identified during this Certification assessment visit. Enhanced detail relating to the overall assessment findings is contained within the subsequent sections of the report

Please Note: Neurology and Palliative Care to be added to the scope

Neurosurgery and Palliative Care has always been a service included but has been omitted on

past certificates.

Jane McGarry	Team Leader

Assessment conclusion and recommendation

The audit objectives have been achieved and the certificate scope remains appropriate. The audit team concludes based on the results of this audit that the organization does fulfil the standards and audit criteria identified within the audit report and it is deemed that the management system continues to achieve its intended outcomes.

RECOMMENDED - The audited organization can be recommended for certification to the National Safety and Quality Health Service standards and has been found in general compliance with the audit criteria as stated in the above-mentioned audit plan.

The use of the BSI certification document's and logo is effectively controlled.

Findings from this assessment

Mandatory requirements – re-certification.

Review of assessment finding regarding conformity, effectiveness and relevance of the management system:

Gold Coast Private hospital has demonstrated a robust quality management system during the assessment of the new NSQHS Standards and has demonstrated clinical governance is an integrated component of corporate governance demonstrating clinical performance and effectiveness of the workforce to provide safe, high quality health care to patients.

Management system strategy and objectives:

Strategic Plan 2019 - 2022 is to be reviewed in April with the hospital moving to a calendar year reporting format following Healthscope change of ownership and corporate structure.

Review of progress in relation to the organisation's objectives:

Four strategic pillars are described in the Strategic Plan: – Quality clinical outcomes; Exceptional patient care; Creating extraordinary teams and Delivering market leading financial returns.

Each of the four strategic pillars has a goal descriptive with actions, responsibility, timing, progress and outcome, KPI, Saving /cost per annum.

The goals are cascaded from the hospital executive management to the GCPH heads of departments with identifiable and measurable targets for their departments.

Review of assessment progress and the re-certification plan:

Certification to the New National Safety and Quality Health Service Standards completed 12/12/2019.

Recertification to the NSQHS standards due in 2022

BSI Client Management Impartiality and Surveillance Strategy:

Both auditors maintained impartiality and had the appropriate qualifications and codes to conduct the audit.

Continue with the current Total assessment days / Cycle.

Definitions of findings:**Non-conformity:**

Non-fulfilment of a requirement.

Major nonconformity:

Nonconformity that affects the capability of the management system to achieve the intended results.

Nonconformities could be classified as major in the following circumstances:

- If there is a significant doubt that effective process control is in place, or that products or services will meet specified requirements;
- A number of minor nonconformities associated with the same requirement or issue could demonstrate a systemic failure and thus constitute a major nonconformity.

Minor nonconformity:

Nonconformity that does not affect the capability of the management system to achieve the intended results.

Opportunity for improvement:

It is a statement of fact made by an assessor during an assessment, and substantiated by objective evidence, referring to a weakness or potential deficiency in a management system which if not improved may lead to nonconformity in the future. We may provide generic information about industrial best practices, but no specific solution shall be provided as a part of an opportunity for improvement.

Observation:

It is ONLY applicable for those schemes which prohibit the certification body to issue an opportunity for improvement.

It is a statement of fact made by the assessor referring to a weakness or potential deficiency in a management system which, if not improved, may lead to a nonconformity in the future.

Notes

This report and related documents are prepared for and only for BSI's client and for no other purpose. As such, BSI does not accept or assume any responsibility (legal or otherwise) or accept any liability for or in connection with any other purpose for which the Report may be used, or to any other person to whom the Report is shown or in to whose hands it may come, and no other persons shall be entitled to rely on the Report. If you wish to distribute copies of this report external to your organisation, then all pages must be included.

BSI, its staff and agents shall keep confidential all information relating to your organisation and shall not disclose any such information to any third party, except that in the public domain or required by law or relevant accreditation bodies. BSI staff, agents and accreditation bodies have signed individual confidentiality undertakings and will only receive confidential information on a 'need to know' basis.

This audit was conducted on-site through document reviews, interviews and observation of activities. The audit method used was based on sampling the organization's activities and it was aimed to evaluate the fulfilment of the audited requirements of the relevant management system standard or other normative document and confirm the conformity and effectiveness of the management system and its continued relevance and applicability for the scope of certification.

As this audit was based on a sample of the organization's activities, the findings reported do not imply to include all issues within the system.

Regulatory compliance

BSI requires to be informed of all relevant regulatory non-compliance or incidents that require notification to any regulatory authority. Acceptance of this report by the client signifies that all such issues have been disclosed as part of the assessment process and agreement that any such non-compliance or incidents occurring after this visit will be notified to BSI as soon as practical after the event.
